<ul> <li>running the remo</li> <li>For a node-locker provided</li> </ul>	cense, enter the hostname or IP address of the machine ote license manager ed license, please enter the activation code that has been rdware dongle-based license, insert the dongle now	
O Node-Locked		
O Dongle		

### Users who received an activation code

· Select the Node-Locked option and enter (or copy and paste) the activation code you received from ALT.

#### Users with a dongle (USB hard lock)

- Plug the dongle into a USB port of the computer you are working on. Wait until the red light on the dongle is on.
- In the License Configuration dialog box select the Dongle option and click OK.

## **Updates and Upgrades**

Note : The following procedure is only applicable to single user licenses.

- · To update a network license please refer to the Guidelines for Network Administrators.
- · Upgrading WellCAD<sup>™</sup> with an add-on module or extending a WellCAD<sup>™</sup> subscription will require an update of your existing license.
- · You will be informed by ALT or its partners when the update is ready to be installed.

## The following steps are required next

About WellCAD

 $\cdot$  Ensure your computer is connected to the internet. If you are using a dongle, please ensure it is plugged in.

· Start WellCAD™

 $\cdot$  Open the About WellCAD  $^{\scriptscriptstyle \rm M}$  dialog box from the Help menu.

· Click the Update button.

WellCAD<sup>™</sup> will connect to the ALT server to check if there is an update waiting for you. If so, a message box will be displayed asking for confirmation to update your license. In case of problems feel free to contact support@alt.lu.
